

Editor's Comment:

We think that the present manuscript entitled "**Parental Polymorphism Survey and Study of Allelic Variation for Grain Quality and Yield Traits using SSR Markers in Rice (*Oryza Sativa L.*)**" belongs to the aims and scope of the journal. The topic of this paper is interesting.

I would like to congratulate the authors for the work presented. But, this manuscript needs to be enriched and improved.

We are pleased to inform you that the manuscript can be accepted with "**Minor Revision**" for publication in the **International Journal of Plant & Soil Science**.
