It's too long (342 words) and with the formatation incorrect. Usually the abstract is made with only one paragraph with no spacing between the lines. The cases need to be joined and resumed.

INTRODUCTION

Insert part of the literature review here, without the subheading 'Literature Review'.

DISCUSSION

No need subheadings. It's necessary to discuss the cases with other cases from the literature.

Literature review is not a part of the discussion.

FIGURES

There are 11 figures. Reduce to 5.

REFERENCES

Need to updated. There is only one paper from 2020 and the others are below the year 2016.

So, the paper can only be accepted after these considerations.
