

**Editor's Comment:**

-The aim and motivation of the paper is not clear.

-There is no methodology utilized. At least simple econometric methods can be employed such as the following paper:

"An Investigation on the Shuttle Trade Dynamics of a Small-Open-Economy" (with Yilmaz Akdi and Cemal Atakan), International Journal of Economic Sciences and Applied Research, Vol. 1, No.2, December, 2008: 1-12.

Available

-Paper's contribution to the literature is not sufficient for a research paper.

-Even "Conclusion and recommendations" section is more than 1.5 pages.

Authors did not make necessary changes and corrections referees required. My decision is to REJECT PAPER FOR PUBLICATION.
