

Editor's Comment:

Based on the reviewers' comments and feedback provided by the author(s) i recommend that the manuscript titled "**Awareness of Women on VAWC (RA 9262): Basis for Information Dissemination on Women's Rights Program**" be published in our reputable journal subject to the following corrections

1. The abstract should be properly written. it should include the purpose of the study, methodology, instrumentation and findings. t
2. The problem statement MUST be rewritten. The issue of concern must be clearly explained with supporting empirical evidences
3. The methodology MUST be revised. The study is quantitative in nature. Interview and FGD should be removed because there is no instrument of such in the manuscript. Sample size, sampling methods and population must be clearly defined
4. The analysis must be explained in detail. The descriptive statistics used in the study must be mentioned and described properly. Analytical tools used in the study must be stated clearly
5. Thorough language editing should be done as well.
