

Editor's Comment:

Taking into account the observations of my fellow colleagues, I want only to insist on the Conclusions and Recommendations part. I consider that the recommendations part is too long and it has to select a few ideas. Why? Because this means that the author did not do too much, since there are so many recommendations to follow.

Hence, with modifications required, it is ok to be published.

Editor's Details:

Dr. Alexandru Trifu
Professor, "Petre Andrei" University of Iasi, Romania.
