

Editor's Comment:

The paper is not ready for publishing because it lacks to answer the following essential question according to two reviewers:

xxx_Sar: 3. You didn't mention about the post classification accuracy assessment analysis. Please reveal that how accurate is your classified image (OLI/TIRS image in 2017) with the actual land. Explain the method chosen for doing the accuracy assessment.

xxx_Mar: The maximum likelihood classifier managed to detect all vegetation areas successfully?
