EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. The title of present study should needed improvement. Author should remove “some” from the title.</p> <p>2. The manuscript is original research article and it has 35% of similarity index, which is not acceptable for original article, therefore, I strongly recommend authors to reduced similarity index up to 10%.</p> <p>3. Authors has cited very old reference (Wang, 1983; Sindhu, 1996; Fennama, 1996; Tagodoe and Nip, 1994; Frankel, 1994; Barakat, 1993) throughout the whole manuscript. I suggest authors to replace these references with newer one.</p> <p>4. The significance letters (a, b, c.....n) should be indicating after standard deviation (SD) of the values in all tables.</p> <p>5. The results of proximate compositions and anti-nutritional should be express parameter wise to better understanding the results.</p> <p>6. Check typo error in heading of section 3.3 and it could be writre like” Anti-nutritional contents”.</p> <p>7. Check significance (p=.05) values in section 3.3 (first paragraph)</p> <p>8. Check and improve the last paragraph of section 3.3. Porosity is the reverse of bulk density?</p> <p>9. Check and improve language of the last paragraph in section 3.5. Do not start the paragraph with “It was observed”.</p> <p>10. Authors need to verify all the cited references or listed references below are same or not.</p>	<p>1. The ‘some’ has been removed from the title.</p> <p>2. The similarity index has been reduced as shown in the main text in ”Red”</p> <p>3. The old references (Wang, 1983; Sindhu, 1996; Fennama, 1996; Tagodoe and Nip, 1994; Barakat, 1993) have been replaced with newer ones.</p> <p>4. This has been effected</p> <p>5. This has been effected accordingly.</p> <p>6. It is actually 3.2 and has been corrected</p> <p>7. Not just in section 3.3 and has all been corrected appropriately.</p> <p>8. Yes. It has been improved upon.</p> <p>9. The ‘it was observed’ in 3.5 has been replaced with more suitable language.</p> <p>10. The authors have verified all the cited texts to ensure they tally with the reference list.</p>
