

SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>In standard scientific publication, once the full name is stated with short form and then the short form is commonly used. In this case, it is applied to both scientific name of tested animals and heavy metal.</p> <ul style="list-style-type: none">- avoid redundancy of using capital letter in the content unless necessary.- according to the objective, a comparison of international standard stated must be incorporated in the table.- detail of description of deep, medium, shallow must be given.- "factorial is stated on a design but utilize one way ANOVA"- cited table in the text is not match with the table provided.- conclusion must be concise.	<ul style="list-style-type: none">- The avoidance of using capital letters was done (all unnecessary capital letters were replaced by small letters).- The international standards were added (incorporated now).- The water depth (shallow, medium and deep) were detailed in the results- Revised well.- Done
