

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Medicine and Health</a>
Manuscript Number:	Ms_AJMAH_78111
Title of the Manuscript:	EFFECTS OF ANTI-SICKLING POLYHERBAL MIXTURE ON HAEMATOLOGICAL INDICES IN NORMAL AND ANAEMIA-INDUCED RABBITS
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajmah.com/index.php/AJMAH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It needs clarity about what type of clinical trial study used, on analysis technique: it is better to clear whether assumptions are checked or not, and state post hock test was done or not after ANOVA	This work is a preliminary study using experimental animals; it is not a clinical trial.  Post hoc test was done after Anova to determine the difference between groups
<b>Minor</b> REVISION comments	Report exact p-value rather than saying <0.05	The exact p-values were not reported because of the two many parameters measure. It is our thinking that reporting exact p value for each parameter will make the abstract too worded and difficult to understand. Thus will group the parameter and presented them using p<0.05 or p>0.05.
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)  No
