EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>The authors said that they used multivariable analysis under "2.3: Statistical Analysis", I don't see anything of it in the result section. I think "Table 3" is concerned with the results of chi-squared analysis; not multivariable analysis. If they didn't perform any multivariable/multivariate analysis, remove it from the methodology section.</p>	<p>It has been removed from the methodology section .. regards</p>
