EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>This manuscript has limited data and is not well organized or written. The two reviewers asked for major/minor revisions. The author failed to satisfy the major/minor revisions request of the reviewers. This manuscript has to be rewritten to reflect literature comparisons, current citations, format and discussions. There is no real discussion on the current manuscript.</p>	<p>Results and discussion are revised with recent literature comparison and current citation.</p> <p>Detail investigation of the dead specimen was not carried out due to administrative proceeding through local government. Therefore, <i>in-situ</i> morphological characters are considered to reveal the identification of the animal and cause of death.</p>
