EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. All the keywords have not appropriately selected and should be re-chosen. Each selection may consists of more than one word, not just one word.</p> <p>2. What is "sem.", "CD" in Table 2? Besides, column heading "50%F" does not match up with the footnote definition name.</p> <p>3. In the last sentence of section 3.6, "...with the results obtained [13]." Should correct to "...with the results obtained by Jayalakshmi and Praneetha [13].</p> <p>4. English language is a major flaw with this paper. Should use either past tense or present tense throughout the entire paper.</p> <p>5. A thorough proof-check is highly recommended also.</p>	<p>I agree all the comments given by editor.</p>
