

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_83472
Title of the Manuscript:	Effect of some organic substances and foliar application of nano-Si on some soil properties and yield of wheat under saline conditions
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - How can the effect of spraying with nano-Si be measured on the physicochemical properties of the soil, was it sprayed on the soil or on plants? Where it is better for the addition to be soil in order for the effect to be clear. - Why was only one concentration of nano-Si chosen and compared with tap water (without addition). It would have been better to choose more than one focus, or explain why chose this focus only from other papers. -The relationship of nano-Si to the soil content of the nutrients (N,P and K). - Where is the method of preparing nano silica or mention the name of the reference only -What is the concentration of nano Si that was sprayed on plants and why is this concentration to be used in spraying 	<p>300mg/l</p> <p>was check and slightly increased</p> <p>in the text</p>
Minor REVISION comments	<ul style="list-style-type: none"> -There are some grammatical errors that should be checked. -A review on the mechanical analysis of soil (setting a percentage for each component) 	<p>yes</p>
Optional/General comments
