

**SDI EDITORIAL COMMENTS FORM**

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1) The revised manuscript-ms_JOCAMR_85479_v1 has many typographical errors that need to be corrected, for example in Abstract: <i>Alchornea</i>; in page 8 Procedure before; at the end of the Introduction <i>W</i>istar and so on.</p> <p>2) The authors have not made the corrections indicated by the reviewer "Rev_JOCAMR_85479_Kam"</p> <p><b>Introduction:</b> Authors should also write more about plant chemical constituents, which might show anti-inflammatory effect. "In the introduction, the chemical components of the plants, which could show an anti-inflammatory effect, are missing"</p> <p><b>Method:</b> Plant species name should start with small letter "Alkaloid: The aqueous <i>Alchornea cordiolia</i> leaves". Authors are also advised to recheck this in whole manuscript.</p> <p><b>Results:</b> Authors should incorporate some pictures of phytochemicals screening test results. They have not incorporated the molecular structures of phytochemicals screening test</p> <p><b>Discussion</b> Authors should incorporate some more recent studies and can compare current finding with already published data. Recent studies are missing in the manuscript. Apart from this, sentence construct is very poor. Writing needs to improve. Full stop is also missing at sentence end at some places. Authors also need to re check the references. "The discussion and references are the same in the original manuscript and in the revised one."</p>	<p><b>Addressed the issue</b></p> <p><b>Made revision</b></p> <p><b>Corrected</b></p> <p><b>Done revision</b></p> <p><b>Noted</b></p> <p><b>Done revision</b></p>
