General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalacri.com/index.php/ACRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. You must first review the text. There are words that need to add space. As mentioned, 1 and 3, of minor revisions	
Minor REVISION comments	1. Where described: desiccators using chloroform and then sacrificed, and Trans cardiac perfusion was performed to fix the brain. I strongly suggest: Animals received inhalation anesthesia, followed by exsanguination/cardiac perfusion, for brain fixation, and preparation for histopathology. 2. If this work has not been submitted to any ethics committee, I suggest checking the AVMA Guidelines for the euthanasia of animals (2020 Edition) and quote if they are in agreement with what was done in the methodology. 3. In the text, authors who are not included in the references were highlighted in yellow .	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes. Kindly please write down the ethical issues here in details)
