PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. The researcher needs to review the whole study and demonstrate the sampling method. All children in the study were malnourished which does not represent the whole picture. Look again at your data and revise appropriately. See in text comments and respond.2. Nutrition is very well studied field. Provide recent references. Look at all old references highlighted in red and change to newer studies.	
Minor REVISION comments	<ol style="list-style-type: none">1. Look at your tenses and make corrections.2. Provide tables suggested especially on demographic characteristics of study children and for the mothers. Clearly demonstrate the normal weight, stunted, underweight/ wasted. This way you can make better comparison.	
Optional/General comments	With the revision, the paper can provide scientific evidence	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
