### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Review of literature should be significantly improved. There are only two sources provided. Materials and methods should be improved, it is not clear how level of Aspiration is measured, based on what method? If it is well-known method or designed by the author? Results and discussions – weak discussion not saying a lot about analysed topic. Statistical analysis only descriptive. Additional explanations should be presented why youth choose specific sectors, is there some connection with other authors findings, or some policy programmes in such regions, etc.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
