### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajaees.com/index.php/AJAEES/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Data analysis: Reference should be made to the fulfillment of the basic assumptions (normality, homogeneity, additivity and independence) in the context of the validity of the results of the analysis of variance. Mention the contribution to the improvement of the quality of life.	
<b>Minor</b> REVISION comments	Materials and methods: It is necessary to mention for each experiment, the number of treatments and replications, as well as justify the design of experiments.	
<b>Optional/General</b> comments	Abstract: It is convenient to mention the levels of the treatments, the number of repetitions and the design of the experiment used in the research.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
