| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | <ul style="list-style-type: none"> In the title dairy animals need to replace by dairy cattle as dairy animals also includes buffalo Manuscript is not written as per the guidelines format of the journals. Language of the manuscript is not clear, ambiguous and sentence does not have follow. No information related to which type of dairy animals are kept by the farmers cattle or buffalo?? There number?? etc No information related to season in which pasture is allowed and dry fodder is given for the animals group going for pasture plus dry fodder. Discussion need to be rewritten as it is not clearly written. Conclusion is not clear defining the objective especially the milking practise Feeding practices are influenced by season which needed to include in the study Type of dairy animal (weather buffalo or cattle) is also important related to its feeding breeding and milking practices Some references are missing in reference cited | |
| Minor REVISION comments | | |
| Optional/General comments | Serious Major revision | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
