### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>None at all</b>	
<b>Minor</b> REVISION comments	<p>Title: Suggestion: To change the research title into ALL CAPS</p> <p>Keywords: You can add MANAGEMENT here...so that along your study you can define management in the context of drip irrigation system</p> <p>Introduction: Suggestion: You can add the word "an" before important. Read: Cotton is an important cash crop in India. You can just write 25 percent...you may delete .00 so that it will be read as a whole number and not a decimal number.</p> <p>Introduction. 3<sup>rd</sup> paragraph: For consistency.....you may change "50%" to 50 per cent. Page 2; "as" Can be deleted</p> <p>Research Methodology: You may delete the word "also" ..Read: district and the researcher. t is suggested to review the total number of respondents. How did you arrive 120 farmers as respondents?</p> <p>Conclusion: The study is very informative and very useful. However, it would be more meaningful if you will add recommendations, maybe for possible intervention, innovations to increase production of Bt cotton. Though this research study intends only to investigate knowledge level and adoption level of drip irrigation management practices by Bt cotton growers, but you can also add insights and recommendations.</p>	
<b>Optional/General</b> comments	Congratulations! Your research will greatly help maybe the government or any sponsoring institutions so that Bt cotton farmers shall be given an assistance from the appropriate offices.
