| <b>Compulsory</b> REVISION comments | <p>In my opinion the article is very interesting and the experiment is well conducted. I believe that this paper should be accepted for publication, but only after major Revisions.</p> <p>Here is the list of the corrections that need to be made:</p> <p>Carry out major revisions mentioned in the article</p> <p>Follow journal formatting style</p> <p>Need to improve the abstract and add conclusions<br/>Authors should rewrite the introduction with recent references.</p> <p><b>Materials and methods</b><br/>The author should calculate genotypic correlation and phenotypic correlation between the studied traits, also heritability as well as genotypic and phenotypic coefficients of variation.</p> <p><b>Results:</b><br/>Authors should more discuss the results section<br/>In results and discussion, one needs to support his findings with new and recent literature reference.</p> <p><b>References:</b><br/>Follow the reference pattern of the journal for references.<br/>All of the references in the manuscript are old. Include recent references in the revised manuscript.</p> |                                                                                                                                                                                      |
| <b>Minor</b> REVISION comments      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                      |
