

Review Form 1.6

Journal Name:	Asian Journal of Agricultural and Horticultural Research
Manuscript Number:	Ms_AJHR_88935
Title of the Manuscript:	Morphological Characterization, Evaluation and Selection of Hibiscus (<i>Hibiscus rosa-sinensis</i> L) genotypes for high yield
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Selection of topic for the study of "Morphological Characterization, Evaluation and Selection of Hibiscus (<i>Hibiscus rosa-sinensis</i> L) genotypes for high yield" is good enough in providing basic genetic information for the breeders to practice selection in a breeding population.</p> <ol style="list-style-type: none">1. Kindly provide the details of desirability of trait combination in hibiscus for practicing selection based on morphological traits in discussion part2. Kindly provide the details of genotypes superior for growth traits, yield traits and both .	
Minor REVISION comments	Impact of environment over years on flower color?	
Optional/General comments	What is future line of work from your findings?	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
