

Review Form 1.6

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_80341
Title of the Manuscript:	Phytochemical and vitamin composition of Cucumis metuliferus juice
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajbgmb.com/index.php/AJBGMB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- This paper describes an interesting short research study that valorises an indigenous fruit with interesting reported therapeutic and nutritional properties. However, it is important to notice that the work carried out here is not enough to ascertain this potential but rather helps in understanding what could be the compounds behind those reported properties, or in hypothesizing possible uses. Authors should adjust the research objective.- A specification of which of the bitter or the sweet form of the fruit has been studied is needed. A picture of the fruit sampled is important here as a figure.- It will be quite interesting in the discussion section to make a comparison of the values obtained with those obtained in other research studies with the same fruit juice (from other country or region) or standard fruits juices like orange juice.	
Minor REVISION comments	Few grammar and spelling mistakes have been noticed throughout the document. A checking is required.	
Optional/General comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
