

Review Form 1.6

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_83234
Title of the Manuscript:	HORMONAL PROFILE EVALUATION IN SWISS MALE MICE ADMINISTERED LAMBDA CYHALOTHIN AND EXTRACTS OF SOME LOCAL SPICES.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajbgmb.com/index.php/AJBGMB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Whole part make confused for me. It's a efficacy test or toxicity test. Some of literature about toxicity and no referenc on methods that useful for supporting your method choice.	
Minor REVISION comments	Abstract : I think the format not usual. In abstract no need write about location and time. In method no need to write the brand of kit but its important to write the mechanism of kit. 3.2 No scientific data to prove that seeds is real of of Piper guineense, Xylopia aethiopica and Tetrapleura tetraptera. Usually need botanist to prpve the identification. The figure is not usual. I thinks better change into column graph	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> YES
