General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajcrmh.com/index.php/AJCRMH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study is relatively well designed and executed and the results are of potential interest for the readership of the journal. However, some minor revisions should be undertaken prior to the publication of this manuscript.	
Minor REVISION comments	Firstly, there are some issues with the English (syntax, grammar, etc.). <u>Introduction:</u> The authors do not cite relevant literature and thus seem to lack knowledge on prior art/state-of-the-art. Legend of the figures should be informative and description of error bar should be added.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
