PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Suggest shortening of introduction as it is consuming a large space for a case report2. Needs significant revision grammatically for the entire manuscript3. The case detail's part can be changed to past tense4. de hernia / de afferent loop : can be changed to "the" unless it is carrying any highlight5. Please specify the isoperistaltic anastomosis details: between ileum and ?	
Minor REVISION comments	<ol style="list-style-type: none">1. A conclusion towards the end with a take home message can be added.2. With significant renal derangement and anuria with nephrology consult, a mention of Renal Replacement Therapy would be pertinent.	
Optional/General comments	<ol style="list-style-type: none">1. A picture of abdomen prior to intervention would have definitely added to the difficulty encountered by the Surgeon during presentation	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
