### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcrs.com/index.php/AJCRS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	References 5 and 6 are not cited in the manuscript.	
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"><li>- COVID-19 is recognized as a risk factor for the occurrence of vascular events so it is important to specify that the upper respiratory tract infection presented was not covid-19.</li><li>- The last sentence of the first paragraph of the discussion lacks a reference.</li></ul>	
<b>Optional/General</b> comments	The cardiovascular risk factors are comparable with the occurrence of aneurysm so it is good to add if the patient was hypertensive or not.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
