Title of the Manuscript:	Cecal Volvulus: Etiology Uncommon of intestinal occlusion Acute Case Report
Type of the Article	Case study

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcrs.com/index.php/AJCRS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	-	
<b>Minor</b> REVISION comments	Figures 3 and 4 are not mentioned in the text.	
<b>Optional/General</b> comments	Well-written case report. Tautology and minor technical inaccuracies in the text (marked in yellow in the manuscript) can be considered shortcomings. Also, the discussion is too long and not very clear. It needs to be shortened and optimized. I recommend publishing this case report once the above issues are fixed!	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
