PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I propose that the authors do a detailed review of the manuscript. I found a lot of English errors. In addition, the text is confusing and presents conceptual errors. I believe that a translator for English has been used who has not provided full understanding on the subject. Bibliographic references are very old and there are currently more current references on the subject.
