PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| Compulsory REVISION comments | Dear author I have carefully read and reviewed your manuscript. This manuscript includes a tone of unstructured already known research material. As a review article, this manuscript requires several structural corrections. Subheadings are required. Figures and tables are required to better categorize and summarize the information of previous original articles. Number of references used for any single sentence is unreasonably high in several cases. Other suggestion is to only present this paper in format of a short "Letter to Editor" or "mini-review" after restructuring the paper. Best wishes and good luck! | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
