Manuscript Number:	Ms_AJCR_89254
Title of the Manuscript:	"MEASUREMENT OF MITRAL ANNULAR PLANE SYSTOLIC EXCURSION TO ESTIMATE LEFT VENTRICULAR EJECTION FRACTION IN PATIENTS WITH LEFT VENTRICULAR SYSTOLIC DYSFUNCTION"
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcr.com/index.php/AJCR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study is well designed. Minor issues can be raised. We suggest to better elucidate the aim of the study in the introduction section, particularly in regard to the gender differences. It could be interesting if the Authors could assess the relationship between MAPSE and age in their population. We suggest to shorten the introduction section.	
Minor REVISION comments	We suggest to remove formula from the Discussion and Conclusions sections	
Optional/General comments	It is an interesting investigation including quite a large number of patients.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
