PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	very good meta-analysis, I would add, 1 chamomile in cold tea and the use of warm water with salt, this is a thermal and anti-inflammatory therapy, which helps these processes in the unerg of venezuela we apply it, as a natural agent and something less expensive For patients who come to their clinical area, it is also important to make a discussion paragraph, where the gaze and vision of the researchers can be appreciated on the subject, after having developed all this collection of investigative background	
Minor REVISION comments	It is good to specifically mention which are the hormones and vitamins that influence the EAR	
Optional/General comments	very good meta-analysis	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
