General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajds.com/index.php/AJDS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The article presents an interesting case report. Not many cases of this type have been reported in the literature lately. Some recommendations that can improve the quality of the paper are: -the authors should specify the agreement number from the Ethics Commission of the institution -re-arrangement of tables and figures within the text, because in case of Table III the title should be placed before the table, in case of Figure 2 the title should be placed after the figure. Also, Figure 2 is placed in the page after, in the text, reference is made to Figure 3. In case of Figure 5 the title should be placed after the figure. -more references should be added, both in the Introduction and Discussion chapters.	
Optional/General comments	The article is clear, easy to read and understand, and the conclusions clearly point out the most important aspects presented in the article.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
