

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Economics, Business and Accounting</a>
Manuscript Number:	Ms_AJEBA_81805
Title of the Manuscript:	Assessment of the effect of re-organization strategy on performance of department of immigration and citizen services in Kenya.
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajebo.com/index.php/AJEBA/editorial-policy>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>1. The items used in the questionnaire do not sufficiently measure the research variables.</b></p> <p><b>2. The statistical tools used cannot give the results obtained and discussed in the analysis and conclusion such as:</b></p> <ul style="list-style-type: none"> <li>- The relationship between the variables can be determined by the correlation,</li> <li>- The effect can be determined by a regression and not by the arithmetic mean and standard deviation.</li> </ul> <p><b>However, throughout the article, we find neither the correlation nor the regression.</b></p> <p><b>3. In the abstract, you spoke about "pie graph, tables, connection (Pearson's relationship) and relapse study", but we did not find its coefficient, nor its analysis in the text.</b></p>	
<b>Minor</b> REVISION comments	<p><b>1. Review numbering:</b> We find only (the number 4.5 for Re-Organization Strategy); <b>The other titles in the text are not numbered.</b></p> <p><b>2. Some concepts need de be changed for example:</b></p> <ul style="list-style-type: none"> <li>- The population of research instead the objective populace.</li> <li>- Sample size instead an example size</li> </ul>	
<b>Optional/General</b> comments	<p><b>It is suitable to proofread the article in order to improve the language and style of writing</b></p>
