Compulsory REVISION comments	<ol style="list-style-type: none">1. In abstract part there is confusion statement. In the result of the research said no tremendous differences in the proportion of ROA, EPS, CR And DER (in the result part make clearly statement to make reader understand) what proportion you means in this sentence . My suggestion In the result part the researcher need to mention the result if there is significant or not . This result to answer the hypothesis in this research2. Need to change some word in the article example: Table 2. above show. I thought it should be table 1. Not table 2. Because table 2 is discussing normality test result3. This article is important	
Minor REVISION comments	Check grammar carefully and punctuation .	
Optional/General comments
