PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> • Instead of saying "A research was done..." just say "The aim of this research is" • Remove the location of the study area from the abstract. In abstract, you are only required to include (introduction, objective, method, result, conclusion and recommendation) in very short and precise sentences • in last paragraph of introduction, show the research gap and aim of the study • increase the quality of Figure 1 • Include the type of sampling used in section 2.2 (garb or composite???) • Include who the Arthropods are sampled (random, systematic???) • In result and discussion section, compare your result with previous studies 	
Minor REVISION comments		
Optional/General comments	The grammar of the whole manuscript is very good	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
