

Review Form 1.6

Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	Ms_AJEE_85460
Title of the Manuscript:	HYDROGRAPHIC PROPERTIES OF SOME BUSY STRETCHES OF THE CALABAR RIVER, CALABAR, CROSS RIVER STATE, NIGERIA.
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajee.com/index.php/AJEE/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Title is inappropriate, The word hydrography would imply that bathymetric survey/studies were carried out and a bathymetric map produced at the end, but the scope of this research did not include that. Replace 'hydrographic' in the title with physio-chemical. The results for stations should be tested with mean separators like Duncan multiple range test or turkey for difference. Sampling just once a month seen rather too scanty should have collected samples or data every 2 weeks for the three months, that would have given 6 sample sets	
Minor REVISION comments	The abstract contains probability test for mean separation ($P > 0.05$), but the method applied was not stated in materials and methods, Superscripts should be added to result tables to show where there are significant differences.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
