PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<p>The article needs minor revision. There are my suggestions:</p> <ol style="list-style-type: none"> 1. Abstract Please write sentences that are easy for readers to understand it. Sentence "378 JHS three teachers, 378 JHS three teachers, and 756 JHS 3 students" is not easy to understand. We must assume the reader knows nothing and our task is to write clearly. 2. Author is requested to use the latest literature and update the data shown in the tables. The latest data may be different from the previous year's data. In other words, it is necessary to display data that shows current conditions. 3. Introduction The author needs to explain more regarding the urgency of the research. 4. Discussion Discussion will be more interesting if the author collaborates research findings with the phenomena and data 	
<u>Optional/General</u> comments	It's an interesting article. I recommend this article to be accepted.
