### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajess.com/index.php/AJESS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>Introduction:</b> It would be better if the discussion in the introduction (background), the author focused more on the urgency of psychological barriers.</p> <p><b>Discussion:</b> in the discussion of research data, it is better to convey the data that has been obtained first, then the analysis of the discussion of the research results is strengthened by several references or previous (relevant) research journals. We provide this input so that the discussion of the research results is more coherent and systematic</p>	
<b>Minor</b> REVISION comments	<p><b>Abstract: (Conclusion)</b> It would be better if it included quantitative data from research results</p> <p><b>Introduction:</b></p> <ol style="list-style-type: none"> <li>1. Suggestion, the first sentence comes from a narrative that is prepared based on the author's argument, after that it is strengthened with relevant references.</li> <li>2. Include a discussion of the basic reasons or the main urgency in this research in a more in-depth and systematic manner. So that each indicator of the problem to be studied can be clearly understood by the reader.</li> </ol> <p><b>Literature Review:</b> In the literature review section, try adding more references related to psychological barriers in learning.</p> <p><b>Method:</b> Give reasons why you should use a random sample selection method</p> <p><b>Discussion:</b> In the discussion section, try to add and show evidence of conclusions from research data to strengthen your opinion in this discussion chapter.</p>	
<b>Optional/General</b> comments
