PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	I have minor comments that may improve the reviewed text. I would suggest giving the percentage values, in addition to the numerical ones, in the table with the characteristics of the studied group. I also believe that these data can be included in part with the research methodology, where the studied sample is described, rather than in part with the results. Moreover, this section should describe the questionnaire used and the course of the interviews in a little more details.	
Optional/General comments	In my opinion, the text is well prepared in general. It has the right design and interesting content about distance education in selected colleges and universities in Zambia.	

PART 2:
