Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In the abstract there should be a brief statement of the research problem. Should not need the title in the abstract and made in one paragraph only. The methodology section seems too long while result too short. The introduction is too long but does not explain the main substance, especially the problem, the urgency of the research and the research objectives. The method has been explained well and clearly. Research result. Repeating a method that shouldn't need to exist. The results of the study are displayed in tabular form and are equipped with descriptions. However, the discussion is still lacking and has not been supported by the results of previous research.	
Minor REVISION comments	Follow scientific paper standard	
Optional/General comments	This paper can be published after being corrected following the standard format of scientific writing	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
