General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajfar.com/index.php/AJFAR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Manuscript "Status of coral reefs in Lagonoy Gulf, Eastern Bicol, Philippines with emphasis on Marine Protected Areas" is good piece of the work. However, English of the MS need to be polished and I also recommend adding recent references from 2016-2020 to the MS and link these new references to the respective sections of the MS.	
Optional/General comments	<p>It can only be accepted if the author can provide the proper justification/revise the manuscript as on the points mentioned below.</p> <ol style="list-style-type: none"> 1. In Result & Discussion part: The author needs to discuss in a tabulated format. 2. How many replicates were performed for the current experiment? 3. English of the MS need to be polished and I also recommend adding recent references from 2016-2021 to the MS and link these new references to the respective sections of the MS. 4. I also recommend doing an English and grammar check before submission of the revised manuscript to the journal.
