

Review Form 1.6

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_83440
Title of the Manuscript:	Frequency of water change on growth performance, nutrient utilization and liver histology of Nile tilapia (<i>Oreochromis niloticus</i> , Linnaeus, 1758)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajfar.com/index.php/AJFAR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Authors have tried to show that <i>O. niloticus</i> is a hardy fish and concluded that <i>O. niloticus</i> juveniles can be reared up to stocking density of 11.5 Kg m ⁻³ at water changing interval of 7days interval without any negative effect on the growth performance and well-being of the fish.	
Minor REVISION comments	No comments	
Optional/General comments	Since the authors did not observe any significant effect on Frequency of water change on any of the parameter, in my view they should have prolonged the studies for more duration. Moreover, there is hardly any exchange of water is done/occurs in pond culture, except additions during raining/flooding etc.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
