

Review Form 1.6

Journal Name:	Asian Journal of Food Research and Nutrition
Manuscript Number:	Ms_AJFRN_87737
Title of the Manuscript:	ANTIBIOGRAM OF Pseudomonas aeruginosa, Klebsiella pneumoniae AND Escherichia coli ISOLATES RECOVERED FROM READY TO EAT FOOD SAMPLES IN ULI CAMPUS.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Methodology:</p> <ol style="list-style-type: none"> 1. Total number of Samples? 2. Any transport media was used in during transportation? 3. Sample status when collected- freshly prepared, reheated food, cold or not taken under consideration during study? 4. Why sterile water was used instead of normal saline? Normal Saline provides a isotonic solution ensuring bacterial survival in sample. 5. Reference required in methodology 6. Write in Passive 7. 0.05 Or 0.5? 0.05 turbidity will be very low from standard turbidity for Kirby Bauer test. <p>Result:</p> <ol style="list-style-type: none"> 1. Pie chart- Either use round number or decimal. 2. Biochemical Table- What staining process was used? 3. Antibiogram results: Is it same result for all the isolates? <p>Introduction needs to be rewritten or paraphrased properly. Major review comments need to be meant to address the research gap in the study prior to publication</p>	
Minor REVISION comments	<p>Title:</p> <ol style="list-style-type: none"> 1. As the text appeared 1st time in the article, use the full form and possible location along with it. <p>Abstract:</p> <ol style="list-style-type: none"> 2. Does mcg stands for microgram? Then using μg will be advisable 3. Ciproflox- Is it commercial name or name of active ingredient? <p>Methodology:</p> <ol style="list-style-type: none"> 4. Kindly mention media manufacturer and country of origin; eg: Eosine methylene blue(Oxoid, UK) 	
Optional/General comments	<p>Introduction:</p> <ol style="list-style-type: none"> 1. Any data available regarding RTE food consumption habits or Trends among the study population? 2. What are the major safety concerns regarding RTE? Any relevant published info in study location or country? 3. Annual Food poisoning cases in Study location 4. Which acidic RTE foods? How pathogenic bacteria are introduced in RTE food? <p>Discussion: What is the situation in study location in comparison to global one? How these data compare to current study findings. Please discuss</p>
