(<https://www.journalcjast.com/index.php/CJAST/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Interesting research work presented in the manuscript by the authors. However, there is some gaps in the methodology. It should be detailed more. Especially in the following sections:</p> <p>2.4 : Nassiuma Coefficient of variation formula 2.5 :The adopted open and closed ended questionnaires 2.6: How the Instrument's validity is significant for logical premises and accuracy? Pls Justify and Provide the accuracy assessment for that. 2.7 Need to provide some basic information for an overall Cronbach alpha results of 0.762</p> <p>3.2 Landscape characteristics details should be confirmed with the available temporal satellite imagery, then it is more reliable</p> <p>In Table 2: The fields SD,D, N, A and SA were not mentioned fully in the text</p> <p>In Table 3: Detailed descriptive statistics for ANOVA will be provided to understand the sample size</p> <p>If any previous studies published results on the study will be provided.</p>	
Minor REVISION comments		
Optional/General comments
