Manuscript Number:	Ms_AJMAH_77268
Title of the Manuscript:	Sudden Cardiac Death
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>In figure 2, authors refer to (4) but it does not seem to be the correct reference- In "signs and symptoms of a cardiac arrest" authors have to correct the punctuation and revise the sentence ("collapse or collapse") and the reference number 5 not seem to be the right reference, please verify. Figure n.3 does not appear in reference 5, please verify and correct it. Figure n5 does not appear in reference 8, correct it.</p>	
<u>Minor</u> REVISION comments	<p>In "signs and symptoms of a cardiac arrest" authors writes: "if you or someone close to you experiences..." that it is not a warning to a population, this would be a review article, so change the sentence. Just before figure 5 the authors have to correct or delete sentence "having a heart attack can lead to a heart attack"; on the next page the first sentence starting with "Despite the decline..." is to be corrected, it makes no sense. At page 9 and 10, please review the punctuation ". Is shown." Pag9, ".haerty." pag 10, "impossible. ," pag 10. At page 10 you refers to a "device installed at the time of death", maybe it was the time of heart failure</p>	
<u>Optional/General</u> comments
