PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | | |
| Minor REVISION comments | I think it is important to specify if the hospital is located in an urban or rural area because that would explain why most of the patients are middle class. In the objectives I do not see much difference between the main objective and the specific one, I think I could leave only the main objective. Regarding the results and conclusions, I would like to know if the stay in intensive care affects the family economy or the roles of each family member because it is known that sometimes a family member loses his job or deteriorates relationships in the family, in addition to the impact on family expenses, and see how socioeconomic status impacts on medical decision-making | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
