PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I don't have any compulsory revisions. The article is well written and logically flowing. The Figure 2 Pie chart is too large and I'd advice the authors to write out the overall satisfaction instead of a figure. Pie charts are not the best figures to use.	
Minor REVISION comments	All HER = EHR, please make corrections throughout text. Some spacing issues with no spaces between some words in sentences and between sentences, need to be fixed but minor. New paragraphs should either be indented or space in-between them. Font in the figures do not match the text. I believe the font should match.	
Optional/General comments
