PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Dear Authors, I have read this text carefully. I positively evaluate the detailed methodology. It is very important part of any research article.</p> <p>Modify your manuscript according to the following changes.</p> <ol style="list-style-type: none">1. Add some quantitative data in the abstract + some background of the study and brief elaboration of techniques used in the study.2. Introduction section needs to be modified and some up to date data must be added.3. Result section needs some more discussion in order to make it more clarified.4. Please add some up-to-date references.5. I propose to list the conclusions. It should be presented more extensively and in an orderly manner. The partial conclusions obtained should be detailed, as well as the final conclusion that can be drawn from this research. This section should be modified.6. Overall, there are some grammatical mistakes in the manuscript. The manuscript needed to be reviewed critically for making the text well written.	
Minor REVISION comments	<p>The authors perform good quality work for the scientific community. I appreciate their efforts; and I think this article could be published by making all the minor and major changes.</p>	
Optional/General comments	<p>Being a reviewer, I would like to congratulate the authors for the research carried out, the methodology followed and the presentation of the results.</p>
