PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It would be better if the results (i.e., your samples) are compared with other previous studies such as other materials and biofilm inhibition (%).	
Minor REVISION comments	Please confirm the font size in text. Maybe, the size in REFERENCES No. 38 is slightly large than others.	
Optional/General comments	The methodological approach seems solid and appropriate. The paper was well organized and the results are important for material science and ecological studies. There is basically no problem regarding English. Therefore, I feel this paper should be acceptable in this journal after minor revision.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
